### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. The prior art of record fails to teach a circuit for use in a respirator delivering gas to the pulmonary tract of a patient during inspiration, said circuit having an operating point comprising a piezoresistive pressure transducer responsive to the breath of said patient and generating a signal in response thereto; a differential amplifier being responsive to said signal; an initialization circuit coupled to the output of said differential amplifier, said initialization circuit having an output, wherein said initialization circuit becomes operative for a predetermined time period when power is applied to said apparatus, said initialization circuit causing said apparatus to be at said operating point at the end of said predetermined period; a voltage comparator having an output and first and second inputs, said first and second inputs being coupled to the output of said differential amplifier; and a delayed negative feedback circuit coupled to the output of said initialization circuit and having an output; the output of said delayed negative feedback circuit being coupled to said differential amplifier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Darwin P. Erez who's telephone number is (703) 605-0420. The examiner can normally be reached on M-F (8:30-5:00).
